WITH SHIFTS AHEAD

The half year of business closes to-day. Half yearly statements, as of June 30, will show the business of the United States on a sound basis, restricted, of necessity, by the entrance of this coun-try into the great war. | Particular reference to the closing of the half year

of trade is made by the commercial reporting agencies in their weekly reviews, published to-day.

Dun's Review says: "The half year
ends with various uncertainties in evidence and with many economic problems
still to be met and further changes

(Mostad, Yet, the attence of commiceffected. Yet the absence of conspicuous unsettlement during the present period of readjustment, with failures relatively moderate, has demonstrated that business and finance rest on a solid relatively moderate, has demonstrated that business and finance rest on a solid basis, and confidence remains the predominating sentiment. The question of prices compels general attention, and doubts about the future of the leading markets tend to induce hesitancy and waiting in many quarters, and cause some degree of uncasinces.

"Not a few important commodities, as was expected, have attained an even more extraordinary position, and where supplies are needed with special urgency exceptional offers are made for rush shipments. One of the best features of the general situation is the steady

improvement in grain crop prospects, with wheat now promising more soundant yields than recent official forecasts indicated." of the general situation is the steady

detreet's says : "Sentiment regard-Bradstreet's says: "Sentiment regarding trade is more cheerful, cereal crop news is much better, prices for numerous foodstuffs are lower, governmental buying continues to broaden, manufacturing is only restricted by lack of labor or supplies of raw materials, jobbing trade helped slightly by reorders reflects improvement in final distribution caused by seasonable weather, and finally buying for fall account has perked up a by seasonable weather, and finally buying for fall account has perked up a
little. On the whole, trade is better than
last year, when distribution was heavy,
and the half year's trade total makes a
new record at large markets. Withal,
the situation is marked by a considerable
strain of conservatism, which to some
is paradoxical in view of record wages
for labor and high prices obtained for
practically all creps."

Despatches to Dun's Review from
Canada indicate that distribution both
wholesale and retail has been perceptibly quickened by the prevalence of seasomable weather in many sections and
generally favorable advices regarding
the progress of the crop.

## BIG GOLD SHIPMENTS TO JAPAN. rd Sum for Island Kingdom to Settle Trade Balance.

The largest consignment of gold in history for shipment to Japan was withdrawn from the Sub-Treasury yesterday. It will be transferred to San Francisco, from where it will be shipped to Japan to settle part of the large trade balance against this country as the result of heavy purchases here and to settle for the Alites' buying in the Island. Kingdom through the United States. It is understood on the highest authority that about \$50,000,000 is scheduled to be shipped to that country by Septo be shipped to that country by Sep-tember 1. Of that amount about \$23,-900,000 has already been sent, including

\$00,000 has already been sent, including the amount withdrawn yesterday.

Treasury Department inquiries sent to Japanese bankers here brought forth the reply that a great part of the gold was being shipped to India to pay for cotton purchased there by the Allies and by Japan. The foreign exchange market in India has been demoralized of late and it has been possible to settle trade balances only by shipping the actual metal.

The local fruit market received advices resterday that the first shipment of this season's apples had been made Wednesday to New York by the Appalachian Corporation of Georgia, which owns thousands of acres of orchards in that State. The apples are of the yellow transparent variety and are said to be a record for early shipment from Georgia or from any other section of the United States.

The Eldert lane, Brooklyn, June 18. The High Cost of Sinkers.

The High Cost of Sinkers.

The high cost of living will soon turn to the high cost of living will soon turn to the high cost of daining. At Seabright the other Sunday I caught a few fish and low three ten ounce sinkers and one twelve-ounce sinker. I bought these sinkers last year at the rate of seven cents a pound. Now I cannot replace them at less than twenty-four cents a pound. At that rate I lost sixty-three cents worth of sinkers. ROD AND BUN.
